

# Ceintures de connaissance des nombres

Nom : ..... Date : .....

Ceinture jaune

Connaître et utiliser des procédures de calcul mental .

Ecoute le calcul pour écrire la somme ou la différence :

Calcule :

$5 + 7 = \dots$

$8 + 9 = \dots$

$9 + 6 = \dots$

$2 + 9 = \dots$

$12 + 5 = \dots$

$10 + 8 = \dots$

$10 - 2 = \dots$

$6 - 4 = \dots$

$10 - 7 = \dots$

$9 - 8 = \dots$

$18 - 8 = \dots$

$13 - 4 = \dots$

$5 + 5 + 9 = \dots$

$6 + 4 + 3 = \dots$

$7 + 6 + 3 = \dots$

$2 + 2 + 8 = \dots$

$9 + 9 + 2 = \dots$

$6 + 5 + 6 = \dots$

$2 + 2 + 2 = \dots$

$5 + 5 + 5 + 5 = \dots$

$10 + 10 + 10 = \dots$

$8 + 8 + 8 = \dots$

$4 + 4 + 4 + 4 = \dots$

$3 + 3 + 3 + 3 + 3 = \dots$

# Ceintures de connaissance des nombres

## Connaître et utiliser des procédures de calcul mental .

Décompose comme l'exemple :  $36 = 30 + 6$

$$36 = 10 + 10 + 10 + 6$$

$24 = \dots + \dots$

$24 = \dots + \dots + \dots$

$31 = \dots + \dots$

$31 = \dots + \dots + \dots + \dots$

Calcule :

$29 + 1 = \dots$

$24 + 1 = \dots$

$48 + 1 = \dots$

$17 + 10 = \dots$

$34 + 10 = \dots$

$52 + 10 = \dots$

$30 - 1 = \dots$

$20 - 1 = \dots$

$41 - 1 = \dots$

$29 - 10 = \dots$

$30 - 10 = \dots$

$65 - 10 = \dots$

$6 + \dots = 12$

$8 + \dots = 10$

$1 + \dots = 10$

$12 + \dots = 20$

$10 + \dots = 20$

$15 + \dots = 20$

$10 + 10 + 10 + 10 = \dots$

$20 + 20 + 20 = \dots$

$30 + 50 = \dots$

$50 - 30 = \dots$

$40 - 20 = \dots$

$60 - 30 = \dots$

Validation de la ceinture jaune !
